in Rk-engineer | 🌐 Rk_Portfolio | 🛠 Rk-Engineer

Summary

Aspiring Software Engineer with strong programming experience in Java and OOP, data structures, and algorithms. Skilled in developing and testing scalable applications, building full-stack web systems, and collaborating in agile environments. Passionate about solving real-world problems through clean, maintainable code and continuous technical growth.

Education

Sathyabama Institute of Science and Technology

Sept 2022 – May 2026

- **Degree:** BE in Computer Science , **CGPA:** 8.23

Sri Ramakrishna Mat. Hr. Sec. School

June 2019 – May 2022

- **HSLC** - 86% , **SSLC** - 99%

Programming Skills

Programming Languages: C, Java, SQL, HTML, CSS, JavaScript

Framework and Libraries : SpringBoot , React.js, Node.js, Bootstrap, TailwindCSS

DataBase : MySQL, Neo4J, MongoDB, H2

Other Tools : ServiceNow, Git, GitHub, Postman, Vs Code

Internship Experience

Project Intern, HCL Technologies – Remote

🛠/Rk-Engineer/AgeDetection

Age Detection Using OpenCV

July 2024 – October 2024

- Achieved **92% accuracy** in real-time age detection using **OpenCV** and deep learning models with optimized preprocessing techniques.
- Integrated **live camera input** with minimal latency, outperforming many existing solutions that rely on static image input.
- Optimized the model integration and preprocessing pipeline, **reducing processing time by ~30%** compared to baseline CNN-based detectors.

Projects

Patch Intelligence Information System

🛠/Rk-Engineer/Patch Intellis

- Developed a centralized system to **track, manage, and analyze software patches**, improving visibility and reducing update delays by **40%**
- Integrated **Neo4j as an interface** to visually map and analyze relationships between patches, software modules, and issue reports, enhancing **clarity and decision-making**.

Student Management System

🛠/Rk-Engineer/Student MS

- Java, SpringBoot, SpringWeb, Spring JPA, SpringREST, H2 Database
- Developed a Spring Boot application using Maven, implementing CRUD operations on a student database with Spring JPA and H2 Database, resulting in a **53% increase in data retrieval speed** .
- Architected a robust RESTful architecture, showcasing proficiency in Spring framework and ensuring seamless communication resulting in a **30%** reduction in response time and a more scalable and maintainable codebase .

Certifications

- **Data Base Management System** (NPTEL)
- **Tools of the Trade: Linux and SQL** (Coursera)
- **ServiceNow Certified System Administrator** (ServiceNow)

Activities & Achievements

- **LeetCode** : Practiced and solved 200+ problems, enhancing coding and analytical skills
- **Luminary Award** : Recognized for excellence in extracurricular contributions at Sathyabama
- **Red Code Exit**" and **"Just a Minute** : Conducted and coordinated two campus events at Sathyabama
